## Clearcoat Products

**LC4000 – Clearcoat** is an acrylic urethane clear for use over Limco Basecoat and Limco Supreme Basecoat colors. LC4000 is a durable, high-gloss clear formulated to work specifically with Limco Basecoat technology. LC4000 does not require a reducer, and uses the LHS, LHM and LHF series hardeners at a 4:1 mix ratio. It can be sprayed for repair, normal or overall. LC4000 can be flexed with Limco 891 Flex Agent, per technical data sheet instructions.

**LC4100 – High Solids Clearcoat** is a National Rule compliant acrylic urethane clear for use over Limco Basecoat and Limco Supreme Basecoat colors. LC4100 is an easy to apply two-coat clear that has excellent gloss and leveling. LC4100 uses the LHS, LHM and LHF series hardeners and can be sprayed for repair, normal or overall. LC4100 can be mixed with a range of reducers to meet your temperature needs. LC4100 can be flexed with Limco 891 Flex Agent, per technical data sheet instructions.

**LC4200 – 2.0 VOC Clearcoat** is a low 2.0 VOC acrylic urethane clearcoat for use over Limco Basecoat and Limco Supreme Basecoat colors. LC4200 is Rule 1151 compliant when used over Limco 4 and Limco Supreme Basecoat. LC4200 is a durable clear that is easy to apply and offers excellent gloss and leveling. LC4200 uses the LH4x5 series hardeners and can be sprayed for repair or normal. LC4200 can be flexed with Limco 891 Flex Agent, per technical data sheet instructions.

**Limco LC4500 Express Clear** is a National Rule Compliant acrylic urethane clear for use over Limco Basecoat and Limco Supreme basecoat colors. It is designed to increase the profitability and productivity of the repair facility. LC4500 is an easy to apply two coat clear that has excellent gloss and leveling. LC4500 offers a range of reducers to meet your temperature needs. LC4500 uses the LHS, LHM and LHF series hardeners. LC4500 can be flexed with Limco 891 Flex Agent, per technical data sheet instructions.

**Limco LC4800 Low 2.0 VOC Express Clear** is a two component, 2.0 VOC compliant fast acrylic urethane clear for use over Limco Basecoat and Limco Supreme basecoat colors. It is designed to accommodate fast air-dry and quick bake conditions, increasing the productivity and profitability for the repair facility. It is ideal for spot and panel repairs with easy application and good appearance. LC4800 uses the LH401 or LH415 hardeners.
